

# Matthew Bishop

## Full Stack Web Developer

Aspiring full stack web developer with 3 years of coding experience. Extremely motivated and driven by the need to learn new technology and share it with as many people as I can. I work best in a team environment in a position that challenges my knowledge.

## Skills

|            |        |            |
|------------|--------|------------|
| HTML5      | CSS3   | JavaScript |
| React.js   | Vue.js | Node.js    |
| Express.js | MySQL  | MongoDB    |
| Npm        | Git    | jQuery     |

## Experience

### InvestCloud Inc.

5/22-2/23

Worked on numerous mobile/web based projects involving asset managing clients across North America. Main skill used were Javascript and CSS3 in addition to setting up network connections for back-end developers.

### ISS Tracker

(<https://mtb-iss-tracker.netlify.app/>)

Track the current location of the International Space Station and its astronauts along with the crew members of the Shenzhou 13. Built with React, styled with SCSS and Tailwind.

API's used:

- OpenNotify (ISS Location and Astronauts)
- OpenStreetMap (Global Map)

### Dogtionalary

(<https://kcnancy.github.io/Dogtionalary/>)

A website that helps users search for adoptable dogs in their area, with help from a library of information about their breeds. Built with JavaScript, styled with Tailwind.

API's used:

- PetFinder
- TheDogAPI
