Matthew Bishop

Full Stack Web Developer

Aspiring full stack web developer with 3 years of coding experience. Extremely motivated and driven by the need to learn new technology and share it with as many people as I can. I work best in a team environment in a position that challenges my knowledge.

Skills

HTML5	CSS3	JavaScript
React.js	Vue.js	Node.js
Express.js	MySQL	MongoDB
Npm	Git	jQuery

Experience

ISS Tracker

(https://mtb-iss-tracker.netlify.app/)

Track the current location of the International Space Station and its astronauts along with the crew members of the Shenzhou 13. Built with React, styled with SCSS and Tailwind.

API's used:

- OpenNotify (ISS Location and Astronauts)
- OpenStreetMap (Global Map)

Dogtionary

(https://kcnancy.github.io/Dogtionary/)

A website that helps users search for adoptable dogs in their area, with help from a library of information about their breeds. Built with JavaScript, styled with Tailwind.

API's used:

- PetFinder
- TheDogAPI

Coding Quiz

(https://mtbishop.github.io/04-Code-Quiz/index.html)

A short 5-question quiz about simple coding questions with high scores stored in local storage. Built with JavaScript, styled with CSS
